

GSE

A global player in
Corporate real-estate

Meyzieu (outside Lyon)

PRESS RELEASE

25 June 2018

GSE TO BUILD EREC-FIRALP'S NEW SITE

In Meyzieu, in the outskirts of Lyon, GSE is building a new 2,500 m² multi-purpose building for EREC (FIRALP Group), a specialist in industrial process management and heating, ventilation & air conditioning (HVAC).

A 2,500 m² mixed-use building on two floors

Designed by architects ARCHIGROUP, this new 2,500 m² mixed-use building will include a 1,500 m² office section and a 1,000 m² storage area and workshop.

In the office area, the emphasis was placed on comfort and well-being at work – with bright, airy workspaces. It will include an open-plan area as well as small and modular offices.

GSE supported the client throughout the design and construction of the building.

Ideally located near the main highways to Lyon, this new site provides excellent accessibility from the surrounding areas.

EREC, a local company

With 35 years of experience serving businesses and local authorities, EREC Technologies (a FIRALP Group company) specialises in industrial process management and heating, ventilation & air conditioning (HVAC). The company develops and assembles turnkey electricity and automation solutions.

This new site meets the company's need for space to grow.

ABOUT GSE

GSE is a major player in commercial property and the leader in the "turnkey" market. GSE oversees all design, construction and/or renovation work with a promise on price, deadlines and quality.

The company is managed by CEO Roland Paul. It employs 367 people and generated revenues of €429 million in 2017, carrying out a total of 70 projects.

A division dedicated to agribusiness accompanies the industrial companies on their management of flows, logistics, storage, process and cold equipment. GSE has a very high expertise / know how of high-bay storage with the implementation of automated stacker cranes.

GSE is established in Europe and China.

ABOUT EREC TECHNOLOGIES (FIRALP)

EREC Technologies is based in the Lyon region. Thanks to the expertise of its 70 employees, it generates annual revenues of €10 million.

EREC Technologies is certified to the Mase standard, a management system that aims for the continuous improvement of Health, Safety and Environmental performance.

EREC Technologies is part of the FIRALP Group.

FIRALP has 12 companies and 2,500 employees at more than 50 local sites in France, focused on the group's main lines of business: electricity networks (high and low voltage), digital networks, public lighting, gas distribution and district heating networks, industrial and commercial electricity.

FIRALP owns strong brands proven in their lines of business and geographical footprints: BABOLAT Électricité, BBF Réseaux, EREC Technologies, GRAMARI, ROESSEL, SCEB, SERANGE, SOBECA, SOBECAMAT, SOMELEC, RESONANCE, and VIOLA.
