

GSE has delivered the expansion of clinical CAPIO Orange

Zone 1 (extension of the current clinic) and phases 1 and 2 of Zone 2 (restructuring of the existing clinic) were delivered on February 4, according to the original contractual schedule having caught nearly 4 weeks of bad weather.

Capio has taken this opportunity to rename the former "Capio Clinique du Parc" to "CAPIO Clinic of Orange," to assert the identity of the new group and its major role in the medical landscape.

The opening of the public clinic was held Monday, February 9th. The first surgeries were carried out with success that day.

The project, carried out in two tranches, included:

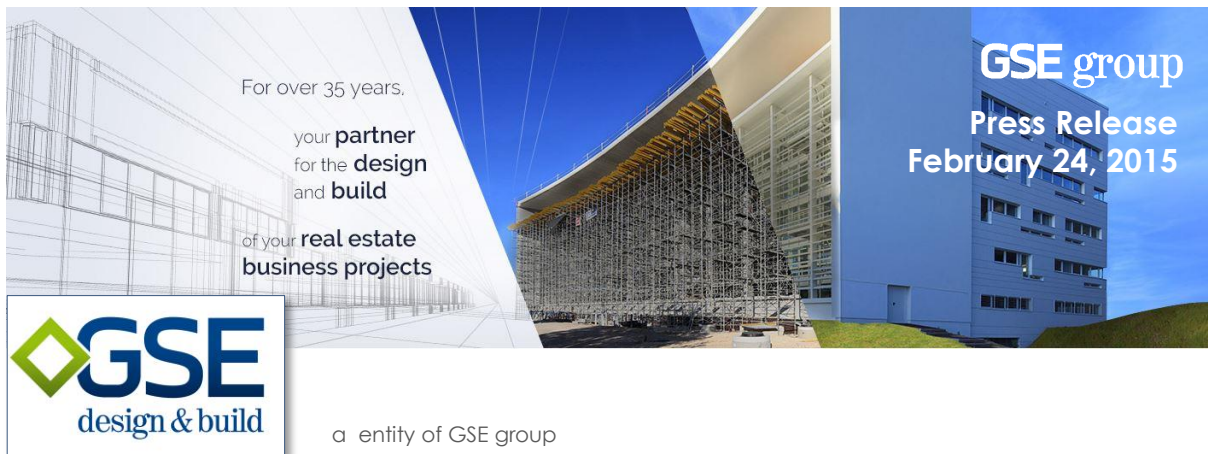

- Tranche 1:
 - The Asbestos removal and demolition of existing buildings

- Tranche 2:
 - Works Extension on an area of about 2200 m²
 - Works Heavy restructuring of existing on a surface of about 3300 m²

The main constraint of the project was to carry out the work on a occupied site. It is also a pilot building used to achieve HQE certification standard operation.
