

## PRESS RELEASE

July 2017

### GSE Recruits 33 Employees in France and Europe in 2017

GSE employs 352 men and women from 17 countries. Spread out between France, Belgium, Germany, the UK, Italy, Spain, Romania, Hungary, Poland and China, they are united in their drive to meet companies' real estate needs.

#### Many profiles sought in France and Germany

After hiring more than 30 people in early 2017, GSE is pursuing its recruitment drive to support its entities' development – particularly in France, Germany and Hungary.

The profiles sought are sales representatives, commercial engineers, research engineers, project managers, technical managers, financial comptrollers, management comptrollers, and one CIO.

*The GSE Class of 2016 of young graduates*

#### A "Class" to onboard young graduates

Young civil engineering graduates were recruited in permanent positions and included in a "Class" when they arrived. During their first year in the workplace, they receive two days of training every month. Courses range from communication to commercial engineering (safety, purchases, planning, roads & drainage, etc.)

#### Wellbeing in the workplace, a GSE priority

GSE carried out far-reaching initiatives to improve employees' wellbeing and to ensure a sound work/life balance. The head office, where almost 50% of employees are based, has a very low turnover rate of about 3%.

*"Our offices have modern furnishings, with a relaxation room and a full kitchen. We organize sports activities at lunchtime and we have many amenities – including a tennis court, a gym, a pétanque terrain – and services on site to make employees' lives easier (an osteopath, a carwash, etc.). Not to forget our joint works committee, which enjoys generous subsidies and recently organized a trip to New York,"* said Aurore Malblanc, GSE's Human Resources Director.

## ABOUT GSE

---

GSE is a major player in commercial property and the leader in the “turnkey” market. GSE oversees all design, construction and/or renovation work with a promise on price, deadlines and quality.

The company is managed by CEO Roland Paul. It employs 360 people and generated revenues of €480 million in 2016, carrying out a total of 70 projects.

GSE operates in Europe and China. The company has a network of 12 regional offices across France, making it the country's largest Global Contractor network.
