

## **GSE build a logistics platform for the company Ojirel in St Quentin Fallavier (38)**

On September 18th, Ojirel and GSE, attended by the mayor of Saint Quentin Fallavier, brought together more than 190 people at the construction site of the logistics platform located in Saint Quentin Fallavier. This building will be operated in particular by Transports Charvin and Pomona Company.

This project, started in mid-April 2015, will be delivered in March 2016, 39,000 m<sup>2</sup> achieved in 12 months. This project was developed following the concept Modulog, intelligent building system based on a set of pre-established loads that optimizes delivery times and guarantee an efficient warehouse with a very competitive price.

GSE is present on the Isère department for over 15 years and has completed a lot of projects:

- Prologis Park in Isle d'Abeau of 250,000 m<sup>2</sup>
- The King Jouet project of 12,000 m<sup>2</sup> in Rives
- The new CEA office building on the Minatec campus in Grenoble 10,000 m<sup>2</sup>
- The warehouse GLD of 36,000 m<sup>2</sup> (Grenoble Logistics Distribution) in Villard Bonnot

## About GSE

---

GSE is the benchmark for the Design and Build Turnkey Contractor business based on the complete support of construction projects (financial arrangements, land identification, technical studies, design / construction and after-sale) and contractually commits on the price, time and quality of the work. The GSE Group now has 360 employees in many countries in Europe and China. In 2014, the GSE group achieved a turnover of around 360 million euros.
